Bogorodskiy, N. A.	YU		
CONFERENCE ON THE PROBLEM OF THE ELECTRON DENSITY OF THE CORONA (W. Vopros o Elektronnoy Densite' Korony) - 15 Nov 60 [?].p.			
Order of the USSR Ministry of Defense 61-14443			
Rough translation of VIBRORADARNEISKY Tsirkulyar (SSR) 1956, no. 137, p. 8-9.			
The data on the state of the solar corona for September 11, 1951 and for August 8, 1954 were recalculated according to the method of A. B. Bogorodskiy and N. A. Shchelikov (Vibroradar, No. 1, 1952).			
A switch which converts the data to the Bratunbeter system according to the general rule of the inverse parabolic light distribution was made. These values were calculated from the authors published previously (Byull. Akad. Nauk SSSR, No. 1, 1954, p. 9, 1955). In such a way the table of electron density of the plasma (bottom only the table according to the author) will need to have access to the 1952-1954 data states in reverse.
